How our expert liver nurses can help

Our friendly, expert nurses have all worked in hospitals with people who have liver cancer and underlying liver disease.

Our support line is for anyone who is impacted, such as: patients, friends, family, carers and healthcare providers.

OUR NURSES CAN:

- 1 Explain symptoms
- 2 Suggest questions to ask your doctor
- 3 Provide general information about treatments
- 4 Answer your questions—you don't need to do this alone
- 5 Refer you for a free consultation with our dietitian and/or counsellor, where appropriate

WE CAN HELP WITH:

- 1 Hepatocellular Carcinoma (HCC)
- 2 Cholangiocarcinoma
- 3 Hepatoblastoma
- 4 Fibrolamellar Carcinoma (FLC)
- 5 Underlying liver and biliary conditions

Please Note: We cannot provide diagnoses, treatment plans, or financial assistance. Our service complements but does not replace care from your GP or specialist.

SUPPORT IN ANY LANGUAGE

- Call TIS National on: 131 450 to connect with us in over 150 languages
- Email us to arrange a free Auslan interpreter

About Liver Foundation

Liver Foundation is Australia’s leading national organisation dedicated to improving liver health for all. Since 1995, we have been working to make liver cancer and liver disease a national health priority by raising awareness, supporting early detection, research and improving access to care.

Funded by the Australian Government, and staffed by expert hepatology nurses, the Liver Cancer Nurse-Led Support Line is an integral part of the Australian Cancer Nursing and Navigation Program that aims to ensure all people affected by cancer are empowered with education, resources, and the support they need to better navigate the health system.
